

# FIRST MESA CONSOLIDATED VILLAGES

December 31, 2020  
FOR IMMEDIATE RELEASE

## PUBLIC SERVICE ANNOUNCEMENT Polacca Water and Sewer Services

Due to the Stay-At-Home Orders imposed during the Coronavirus Pandemic, the use of water and sewer services has increased. The west water tank must be filled and chlorinated almost 24/7. Our water system is 20 years old and should be scheduled for replacement. Any breakage of critical equipment, occurring at any time, will result in no water and require additional funds.

The cold temperatures are causing water breakage and sewer clogs. We published recommendations of procedures to minimize freezing water pipes. It has been found that Sewer clogs are caused by disposable wipes, paper towels, etc., into the sewer pipes.

We encourage everyone to conserve water use during these critical times. The hauling of bulk water for livestock remains unallowable. We must now ask your help to report any misuse of water. We cannot support new water hookups at this time and will police our village for violations to prevent unnecessary disruptions to our water services.

Any questions, you can always call at 928-737-2670.
